

Science Test-Taking Strategies

1. Underline key words:

- all
- not
- except

2. Define vocabulary words in the margin

- Yes, actually WRITE out the definition!

3. Label and draw on pictures and maps to show what the question is asking.

4. Think about investigations we've done in class.

- weather stations
- heart obstacle course
- ecocolumns
- pulling cars with weights/carrying a load

5. Read ALL diagrams, pictures, charts, labels, and graphs.

6. Justify your answer.
